RE: Submission of Discharge Monitoring Reports
Permit No. MA0000833

Dear Sir/Madam:

This report is being submitted on behalf of ExxonMobil Oil Corporation. The June 2014 sampling data has been submitted via the NetDMR system to the US EPA including the permit-required analytical reports for these periods:

- June 1-30, 2014 Monthly DMR Period
 - Sampled from outfall 01A on June 5, 2014
 - No discharge from outfall 01B
 - Sampled from outfall 01C on June 16, 2014 (pH only) and June 20, 2014 (all other monthly parameters). The June 16 samples were received by the lab over-temperature due to a weather delay experienced by FedEx during shipment, so replacement samples were collected on June 20.
- April 1 – June 30, 2014 Quarterly DMR Period
 - Sampled from outfall 01A on April 8, 2014
 - Sampled from outfall 01C on April 3, 2014 (all parameters except mercury) and May 8, 2014 (mercury only). The laboratory did not analyze the April 3 sample within holding time for mercury, so a replacement sample was recollected with the May monthly parameters.

If you have any questions, please contact me at (617) 381-2802.

Sincerely,

Damian Guzman
Terminal Superintendent
